UI /UX Designer, 02/2024 - Current

Freelance – Remote

- Successfully completed a three-month freelance project to design and develop a user interface for a client's web application.
- Collaborated closely with the client to gather requirements and translate them into a cohesive UI design strategy.
- Created wireframes, mockups, and prototypes using tools such as Figma/Sketch/Adobe XD to visualize the design concepts.
- Applied best practices in UX/UI design to enhance usability, accessibility, and overall user experience.

Frontend Developer - Graphic Design, 01/2023 - 01/2024

Alphorm – Paris (Remote)

- Developed wireframes and prototypes to effectively communicate design ideas to stakeholders and team members.
- Enhanced digital marketing campaigns by producing dynamic visual content tailored for web and e-commerce platforms.
- Ensured all design outputs adhered to established brand guidelines, maintaining a uniform visual

presentation.

- Designed user flows, ensuring seamless transitions between different stages of the user journey.
- Created style guides and design systems to maintain consistency across all platforms and products.
- Improved website loading speed by optimizing images and graphics for better overall performance.

Full Stack Developer, 02/2021 - 01/2023

Alphorm – Paris (Remote)

- Developed and maintained responsive web applications using ReactJS, ensuring seamless user experiences across devices.
- Proficient in both front-end and back-end development technologies such as HTML, CSS, JavaScript,
 React, and Node.js.
- Skilled in creating responsive and intuitive user interfaces leveraging frameworks like Tailwind, Bootstrap, and Material Design.
- Capable of translating project requirements into efficient and scalable code solutions.
- Strong understanding of version control systems like Git for collaborative development.
- Adept at employing comprehensive testing methodologies utilizing Cypress and Jest frameworks.
- Ability to optimize application performance and troubleshoot/debug complex issues
- Familiarity with Agile methodologies for project management and development
- Continuous learner with a proactive approach to staying updated with the latest industry trends and technologies.

Computer Programming & Robotics tutor, 01/2018 - 01/2021

TECHNO-ROBOT

- Tailored and delivered engaging computer programming and robotics lessons specifically designed for children, emphasizing foundational concepts in a fun and interactive manner
- Developed age-appropriate curriculum and learning materials to introduce kids to programming languages like Scratch, Python (using platforms like Code.org, Scratch Jr., etc.) and beginner-friendly robotics kits (such as LEGO Mindstorms, etc.)
- Provided individualized guidance and support, fostering a positive learning environment to encourage exploration and creativity in coding and robotics among young learners
- Implemented interactive activities, games, and projects to enhance children's problem-solving skills, logical thinking, and understanding of robotics principles
- Conducted regular assessments to track progress and adjust teaching methods to accommodate varying learning styles and skill levels of kids
- Organized and supervised coding clubs, robotics workshops, or maker sessions to promote teamwork, innovation, and hands-on learning experiences
- Collaborated with parents to share insights into children's progress and provide resources for continued learning at home, encouraging parental involvement in their child's educational journey.
